GENERAL NEWS

BY TELEGRAPH TO THE OREGONIAN

Republican Gains in New Jersey.

New York April 14 —The municipal election in Jersey City to-day resulted in large republican gains which will give the republicans control of the police and fire commissioners, and probably of the aldermanic board and the board of public works. The police and fire boards are now a tie. It will take complete returns to decide who is elected mayor, although the republicans at midnight claimed the election of their candidate Henry Dusenberry by 500 majority. In Hoboken the entire democratic ticket was elected. John O'Neil democratic candidate for mayor, defeats the present mayor Besson republican. Other New Jersey cities show republican gains.

Charter Election at Albany.

Albany, N Y, April 14 —A charter election to-day resulted in the re-election of Mayor Nolan and the entire democratic ticket by a large majority. Fifteen of seventeen aldermen are democrats. Twenty-five or thirty [illegible] voted for school officers.

Grant's Evening at Memphis

Memphis, April 14 —Last night Gen Grant attended the theater and after witnessing one act of the "Pirates of Penzance" was escorted to the rooms of the Tennessee Club where he was entertained. At 11 o'clock he was banqueted at the Peabody Hotel by 70 prominent citizens.

The Express Company Wins.

The Right Sort of Indian Policy

Santa Fe, April 14 —Some important move is in progress near the Mescalero reservation under Hatch's personal supervision. Gen. Sherman telegraphs to-night that if possible, an end will be put to these annual outbreaks; that Hatch need not regard the boundaries of departments, and must not allow the enemy to claim refuge in the Indian reservation. When made captives they be stripped of arms and horses, and held prisoners, some to be surrendered to the civil authorities for trial, others to work in stone quarries at Fort Leavenworth

A Horse Stealing Raid.

Deadwood, April 14 —Sixty horses were run off from Belle Fourche valley by Indians yesterday. A company of the 7th cavalry and many ranchers are in pursuit.

A Scene in the Whittaker Investigation.

West Point, April 14 —A scene occurred in the Whittaker case to-day. Martin I Townsend, U S district attorney of New York, addressed a private remark to Recorder Sears, who was questioning a witness. Sears replied, when Townsend distinctly said "I am in the habit of being treated like a gentleman, sir." Sears, addressing the court said that Townsend was interfering with the examination. Townsend said that he had only asked the privilege of conference for a moment. The president of the court said that he supposed the recorder thought him out of order and without authority to interfere. Townsend retorted that he came here against his will by order of the secretary of war. If he had been uncivil it was because in his imperfect civil education he did not know what being uncivil was. There was, however, a conference during a short recess which then occurred, and when the court reassembled examination began of Post Surgeon Alexander. Townsend watched all the testimony closely and asked many questions

Clearing House Statement.

New York, April 14 —Payments through the banks for the week ending the 10th, according to the *Public's* regular weekly clearing house statement, tell very satisfactory at all cities except San Francisco, [illegible] exchanges exceed those of the corresponding week of last year. While [illegible] show a good degree of activity. The comparison is less valuable because Good Friday is differently observed in different cities, but there can be no doubt that the movement at Philadelphia, Chicago and Pittsburg and some other cities, as well as New York, shows very satisfactory progress. Hereafter it will be necessary to make more account of the sharp decline in prices which has been enough to account for a decrease of more than $150,000,000 in the aggregate of exchanges per week since the middle of February. At some cities such as Chicago Milwaukee, New Orleans and Pittsburg the fall in the price of commodities of chief commercial importance has been such as to greatly affect exchanges, and therefore returns from those cities, inasmuch as they show large increase, are more encouraging

Fire in New Jersey.

Forked River, N J April 14 —The entire country about here is a mass of blaze. One hundred square miles of cedar and pine forest is consumed. The greatest alarm is felt by the villagers, who are out fighting the flames

A Further Account.

Manchester, April 14 —There seems no abatement to the terrible forest fire which surrounds us. The fire has spent its force here, but is burning towards Barnegat. Trains on the New Jersey Southern railroad to-day ran the fiery gauntlet with closed windows, which were blanketed. Few passengers undertook the dangerous ride. The heat was intense, and the cars badly scarred

The Fire Still Raging.

Tom's River, N J, April 14 —The great forest fire has crossed the river, and is speeding towards Good Luck Point and Island Beach. Fears are felt that it will reach the towns. People are fighting the fire. Ormit's mills are reported destroyed

Rates are reduced on the same basis to Albany, Philadelphia, Baltimore and Buffalo and on flour as well as grain. An unusually heavy cut of 10c per 100 on provisions is said to have been the result of a threatened combination among provision men to ship all their provisions by water. It is expected that the reduction will stimulate shipments to some degree. Rate on provisions to New York is now 3c; rate on grain to Boston 35c; Philadelphia and Baltimore 27c, Buffalo 17½c

A TEST CASE

The Rights of American Citizens in Turkey—Settlement of a Case now Pending—The U S Consul has the Game in his Own Hands

[SPECIAL DISPATCH TO THE OREGONIAN.]

Constantinople, March 14 —Following are particulars of a conflict of jurisdiction between the U S consul general and the Ottoman authorities growing out of the arrest of an American citizen for murder. The case comes directly before the American consulate and involves very important questions of international rights established by privileged position of American citizens. The treaty between the United States and Turkey stipulates that any American citizen having committed any criminal offense must be delivered up to the American consulate for judgment. This is not the case with any other foreigners who if charged with a criminal offense on an Ottoman subject would be tried by an Ottoman judge although his case would be watched by the dragoman of his consulate. A month ago an American citizen established in business at Constantinople killed an Ottoman subject accidentally. He surrendered himself to the American consul after having remained hidden for a few days. Meantime the Turkish police seized everything in his warehouse in Galatia, without having asked assistance of the American dragoman. The accused is an importer of arms and the minister of police forced a box of arms open and appropriated several revolvers which example was followed by other officials. Consul General Heap who is also charge d'affaires was informed in a charge against an American after this act and on the day previous to his surrender complained to Sawas Pasha minister of foreign affairs, that the domicile of an American citizen had been violated and robbery committed by police officials. Heap informed the minister of police of the fact stating that according to stipulations between the United States and Turkey, he would himself try the prisoners. The minister of police has not appeared at the consulate and Heap has informed Sawas Pasha that he will not surrender the prisoner to a Turkish tribunal and that he expects evidence before a consular court. Thus the case stands at present. If the prisoner is tried by Heap other powers will claim similar privileges for their subjects. A dispatch from Constantinople cabled on the 10th and dated four days later than the above, stated that the prisoner had been tried found guilty of manslaughter and sentenced to two months' imprisonment, and that Heap declined to give him up to the Ottoman authorities. The following dispatch was received from Constantinople direct to-night

CONSTANTINOPLE April 14

The American who was convicted of manslaughter before the consular court and sentenced to imprisonment for two months has been sent to an American prison at Smyrna. He was conducted thither by Consul General Heap himself

WASHINGTON CITY.

The Proposed Removal of the Utes.

Washington April 14 — Gen Sheridan who has returned from Chicago, where he went to consult with Gen Sheridan about the carrying out of the Ute agreement which passed the senate does not anticipate any trouble with the Utes. Such arrangements will be made that there can be no outbreak even if the Utes are inclined to be turbulent. They will, he thinks, be removed from Colorado without any trouble. There will of course be a big confab and then the Utes will be removed as the agreement provides

Cabinet Meeting.

To day the cabinet was informed by the secretary of war that the Sioux Indians are anxious to surrender to General Miles who thinks all cannot be fed and cared for as prisoners

The cabinet discussed Cadet Whittaker's case, and decided unanimously that he should have as counsel Martin J Townsend, U S district attorney of New York, and that a thorough investigation be had

Army Promotions.

The senate military committee to day reported favorably on all pending nominations for promotion in the cavalry infantry and engineer branches of the service

The Exodus Investigation.

Before the exodus committee R L Falker (colored) testified that he was 63 years old and from Natchetas, was republican but voted the democratic ticket for safety. He was disgusted with the republican state leaders. He had been president of a ward club in his parish, and had been taken from home by masked men a few nights before the election in 1868, robbed of his purse and registration papers and advised to resign his position and withdraw from politics which he did. The vice president of the club, who was called out, recognized some of the party and was therefore instantly killed. Witness had been persecuted by negroes for affiliating with the democrats

Relating to Bonds.

Meeting at Minneapolis.

Minneapolis April 14 —The State Millers Association a very large and important body elected delegates to the national convention at Cincinnati. A resolution was discussed at length but finally defeated setting forth that because there is enough wheat in the state to supply the mills until the new crop is secured, and too much flour at present on the market for profit, they would close their mills for one month from April 20 and recommend that the members of other state associations do the same

THE NORTHWEST.

Walla Walla *Statesman*: The wheat fields along the valley as seen from the cars look to be in excellent condition. We predict another heavy season

The *Daily Statesman* which recently appeared at Walla Walla, does not supercede the weekly edition of that paper but will be published in connection with it. The former has improved from its first number, and is a credit to Walla Walla

Snake river is now in a good boating stage and navigation has fairly opened, which fact is hailed with joy throughout the entire upper country. Two boats came up last week and others are following at regular intervals. A considerable quantity of freight has already been landed at the shipping points, but as all our dealers have run short since navigation closed the boats will be heavily loaded with up freights for some time to come

A correspondent writing from Marshall a new town in the Palouse country says: Three months ago this spot was almost a wilderness and no other sounds than the chirping of birds and the tuneful croaking of the festive frog comparatively unknown. But now all is changed, and new sounds of more welcome music greet our ear. A dozen hammers and saws constantly ring out the song of progress. The welcome hotel bell and restaurant triangle replace the croaking of the frog and the wilderness is being made to blossom as the rose

Yakima *Record*: Recently we hear that a "clootchman" died in giving birth to twins on the reservation. Shortly after her death a discussion arose among the Indians as to who should assume the care of the infants. All refused to care for them, and there being no other way to dispose of them the Indians buried the babes alive with their dead mother. If this is true it is the most barbarous and inhuman act we ever heard of and gives the lie to all assertions as to the civilization of the Indians on the Yakima reservation. It calls for an immediate investigation at the hands of the Indian agent and should he fail in this respect the whites of this section will hold him accessory after the fact. He should ferret out and punish the authors of this fiendish outrage

TILDEN'S INCOME TAX SUIT

Postponed by his Request until After the Presidential Campaign

Washington Telegram to the New York Tribune.]

Upon the application of ex Gov Tilden's counsel the trial of the Tilden income tax suit has been postponed until November next. The government cannot possibly by this proceeding lose any advantage which it may now possess and it may gain very important advantages. Six or eight months ago the government filed a bill of discovery to which Mr Tilden's counsel demurred. The court [illegible] decided that he was bound to answer the questions propounded and his counsel appealed from this decision to the supreme court of the United States which has not yet rendered its decision. If the case should be tried now the government would have to forego any advantage which it may expect to derive from the information to be obtained through the writ of discovery. If the case be continued to November the counsel for the government expect that the supreme court will decide in its favor and that they will have in addition to the evidence now in their possession the additional evidence which will be contained in Mr Tilden's answer.

It follows therefore that while the postponement has been made at the application of Tilden's counsel it cannot in any way prejudice the case of the government while it may strengthen it.

NOTES AND NEWS

The New York *Mail* says there are 30 tons of ore specimens in the Sturtevant house in that city. It would pay to work that lode, for every specimen is very rich. They were left there by mining promoters

One of the Harper brothers, of New York recently deceased. His collection of pictures, just sold at auction brought $105,640. The amount exceeded expectation but was not more than the actual worth of the pictures sold

The supreme court of the United States has decided that national banks receiving special deposits on bonds, on a contract of hiring or without reward become liable to the owner for their loss, for a greater or less degree of negligence

The New York *World* newspaper has advanced its price from eighteen cents at which it has stood in the past to twenty four cents per week. The reason for this change is stated to be the rise in the price of printing paper which has been fully 40 per cent

The lower house of congress has ordered the printing of 570,000 octavo volumes many of them to be illustrated with costly engravings. It is said 100,000 volumes of this job lot will be devoted to the diseases of swine and it will require 300,000 volumes for Le Duc's Agricultural Report

It is reliably stated that the paper combination is only waiting the adjournment of congress to make a still further advance in the price of its commodity. The rate proposed is 12 cents per pound, double what it was six months ago. During the war this greedy ring raised the price to 27 cents a pound. There are no limits to its rapacity

Five immense blocks of stone have been removed from the Great Pyramid of Egypt lately by consent of the khedive for the purpose of being used in the construction of a mosque. The whole civilized world should feel an interest in the continued preservation of this monument of a past age and diplomatic influence should be exerted to prevent further inroads of the character referred to

Mr. Froude the English historian, has sent a javelin after Mr Matthew Arnold. He has written a book on Bunyan for the "English Men of Letters Series," and concludes the book with the remark "the Pilgrim's Progress will still be dear to all men of all creeds who share in it even though it pleases the elect modern philosophers to describe its author as a Philistine of genius"

A Bridgeport Conn, attorney recently took strong exception to the ruling of the court that certain evidence was inadmissible. "I know your honor" said he, warmly, "that it is proper evidence. Here I have been practicing at the bar for 40 years, and now I want to know if I am a fool?" "That" replied the court, "is a question of fact and not of law and so I shall not pass upon it, but let the jury decide."

The celebration of the birth of Dr Chalmers in Scotland is to be accompanied by more lasting memorials of the man and his work than the eloquent speeches made in great public assemblies. It is announced that Mr Macfie of Airds has given $25,000 to establish a lectureship to be known as the Chalmers Lectureship, and to be employed in the maintenance and defense of the principles of the Free church

General Sherman has made a strong point on the imbecile Indian policy which systematizes Indian wars by taking the squaws and children under government protection while the warriors are fighting the government troops. At present the non-combatants of Victoria's band are being fed by the government in this way and Gen Sherman observes incisively "The Indian bureau is feeding at a heavy cost the families of Victoria and his band of Apaches, while the war department is fighting at an awful cost in money and life, the warriors and bucks. Does not this magnanimity verge on the borders of folly?"

James B Upton was unanimously elected representative with Clatsop county to the state legislature and authorized to confer with the republicans of Clatsop county in relation thereto and secure the confirmation thereof if possible.

GENERAL POLITICAL MATTERS

Tilden's Explicit Denials

New York April 13 —The *Sun* says: A reporter of the *Sun* called on Mr Tilden yesterday, intimating that Mr [illegible] had expressed in his belief that Finley had no authority to represent Mr Tilden in respect to the Donnelly election case or to make any commitment on behalf of Tilden respecting it to Springer. Mr Tilden said that Mr Springer was perfectly right. Finley had no pretense of authority to represent him in that matter or in anything else. Mr Tilden has in no way whatever directly or indirectly interfered with any election case before the committee. He has never expressed any wish to any human being concerning the [illegible] case. He has not had any communication with Finley. Mr Springer knew perfectly well that if Mr Tilden had any communication to make to him on that or any other subject he would have done so directly as he has had plenty of opportunities to do so. He has very rarely recently had the pleasure of seeing Mr Springer but on no occasion did Mr Tilden say a word about any election case pending before the house of representatives

Senator Hoar on the Presidency

Chicago April 7 —The *Tribune* says: Senator Hoar has written to a member of the Massachusetts legislature a letter on the presidential question in which he advises strongly against instructions to delegates to the Chicago convention. He urges that men be selected who can be depended upon to act for the best interests of the republican party when the time for action comes. He does not believe Grant the strongest candidate that could be nominated fearing that in the event of his nomination there would be large defections among the Germans and republicans opposed to a third term

Another Interview with Tilden

Boston April 8 —A representative of the *Herald* has had an interview with Tilden who said: "I don't mind saying frankly that the time has come when I don't care a continental penny for either politics or politicians. I am not carrying on such an establishment in politics as some newspapers make out. I receive five hundred letters daily and get a good many slips of complimentary articles from editors. I got one from the south so soapy as to be almost disgusting. I am no more moved by flattery than by abuse. Many cunning expedients are devised to bring me to a formal declaration on the presidential question but I shall not speak until I get ready. The talk about my dictating nominations is ridiculous. Not a living man knows what my preference is. Gen McClellan wrote me an indignant letter because I did not tell the politicians what I am going to do. I don't let the breeze about the income tax worry me. You would be surprised to see the number of matrimonial letters which have come to me during the last six years some of them from ladies of high standing." A correspondent says both of Tilden's hands are palsied and his whole system trembling. His voice is the feeblest of the feeble

A Counter Statement.

Chicago April 7 —A *Tribune* New York special says: Tilden's friends ridicule the story of his withdrawal. Captain Rynders the veteran politician saw Tilden, and subsequently said: "I know all about the story and I talked with Tilden about it an hour ago. There is not a bit of truth in it from beginning to end. Tilden is in better health than for years. He has not been examined by any doctor and there has not been any conference between him and his political friends about his withdrawal and he has not said to any one that he is not a candidate. I know whereof I speak since my information comes direct from Mr Tilden

The Danger of Defeat.

Washington April 2 —Congressman Butterworth of Cincinnati is reported to have said that if Gen Grant is nominated for the presidency he (Butterworth) will decline to stand as a candidate for renomination. He asserted that with Grant as the nominee no republican can be elected to congress from the 1st (Cincinnati) district next fall because of the decided opposition to the ex president

The Drift in Illinois.

Chicago April 8 —Four counties in Illinois have chosen delegates to the state convention, and the tally so far stands

	Grant	Blaine
Shelby (Dem)	5	0
Kane (Rep.)	5	8
Champaign (Rep)	1	9
Knox (Rep)	0	13
Total	11	30

Sherman has one delegate in Champaign

Pat: "Well Dan and have ye heard the news—have heard that Rory the miller's dead?" Dan: "Rory the miller is it that's dead now? Jabers but ye don't say so and he was a young man too." Pat: "Faith an' that's a threw for ye Dan he was such a young man now that I expected to see him at my funeral instead of me going to his."

PAPER AND MONEY

A democratic soft money writer taking Judge McArthur to task talks about the heresy of the idea that gold and silver are the only real money. If this be heresy one would like to know where to look for sol[illegible] truth. Paper is talked of as if it could be money in its own account without reference to gold and silver. But the only value paper ever had or can have is the fact that it is based on gold and silver and is to be redeemed in them. Hence paper in no form can ever be actual money. It is only a promise to pay money and nothing else can be made of it. Whether in treasury notes or in bank notes, or in any other shape whatever paper is valuable only through its redeemability. If the chances of its redemption or conversion into gold and silver be small paper will be much depreciated as our greenbacks were during the war. As the chances of its redemption improve it rises in value. Our greenbacks are now worth as much as gold only because the government is prepared to redeem them on presentation. But let the supply of gold run short so that the government no longer has ability to give it in exchange for its paper and our greenbacks will go down again. The credit of government rests on precisely the same basis as the credit of an individual. A man who has paper outstanding which he cannot redeem as it matures soon finds his paper hawked about at a discount. A government which cannot give gold on demand for its notes which are promises to pay sees the notes depreciate in value and when the case is desperate, as in some of the South American states at this very time the notes are not worth three cents on the dollar or perhaps not quotable at anything.

Our government paper, now of equal value with gold, will remain so only just so long as we have sufficient gold in the treasury to assure its redemption. It is not actual redemption that is required, but only assurance that the government has ability to redeem fully and promptly. In relation to finance, gold and silver are not only not heresies, but are the most solid facts in the universe,—the facts on which all other financial facts depend. If by any juggle we should undertake to call paper "constitutional money," still it would not be money, and neither statute nor constitution could ever make it so. Judge McArthur has learned these facts, and the knowledge he has gained puts him in antagonism to all those who talk about paper as "money," without reference to the gold or silver in which all paper must be redeemable, or have no value whatever.

About six months ago it was announced that Henry M. Stanley had again set out upon an expedition into Africa. Since then the cable has been silent regarding his whereabouts. But mail advices now give an account of his operations up to November. He is at the head of an expedition sent out by the Belgian government to establish trade with the natives of the Upper Congo. He took with him one hundred Africans, many of the number being men of Zanzibar who accompanied him on his memorable journey across the continent. Eight whites also went with him, but at last accounts two of these were dead, another was dying and a fourth had deserted. Three of his five steamers were useless, lying below the cataracts around which he was constructing a road five miles in length. Within the distance there were no less than sixty-three sets of rapids, a majority of which are impassable. As the ground is covered with immense rocks scattered about in wild confusion, the river having formerly flowed over what is now dry land, the construction of this road was possible only with the most arduous labor. Mr Stanley has quite a settlement of temporary dwellings and storehouses on the high bluffs on the right or north bank of the river near Vivi, fifteen miles above Nobi, the most interior European trading station. He is battling with the most formidable obstacles, but unless baffled by disease or treachery on the part of the natives, he will surmount them if it lies within the limits of possibility.

A letter from a ship-brokers firm in San Francisco to a person in the shipping business in Portland, contains this passage: "We would be glad to have some reliable report as to the depth of water on Columbia river bar at the different seasons. We referred you in a previous letter to a report published here of the Portland board of trade, which recommends no vessel drawing over 20½ feet." This supports the view stated by us as to the effect of the circular of the board of trade. In this case we know that it prevented a ship from coming to the Columbia river which could easily and safely enter. It was impossible to overcome the objections of the owner of the vessel, which were based on the entirely erroneous supposition that the bar is shoaling, which supposition was confirmed in his mind by the circular of the board of trade. Facts of this character, we think, support our statement that the circular, coming out again under circumstances which would call attention to it more generally than in former years, was the most alarming report ever published about the bar.

Mr E. D. Phelps, of the firm of Phelps & Wadleigh, who is just down from Moses' reservation where he has been in business many years, says that the statement made by Eastern Washington papers and circulated elsewhere that Moses had been driven from the reservation, is entirely unfounded. There are most harmonious relations between Moses and his band and the whites of that region. Moses himself has spent most of the winter at Omac Lake on the lower end of the Colville reservation, where he has the special permission of the secretary of the interior to reside when he so desires. Many of the Indians on Moses' reservation are fencing in land and will raise crops. All cereals and common vegetables grow well in that locality. The Indians support themselves wholly, receiving nothing from the government. Mr Phelps says that the only thing necessary for maintenance of permanent peace with these Indians is to let them alone.

Gov. Seymour has been interviewed on the presidential situation. He does not believe Grant will be nominated. Some new man whose relationships are yet unknown will, he predicts, be the man to win. As to the democratic nomination, Gov. Seymour thinks that the action of the convention will be shaped by the course of events and particularly by the action of the republican convention which will be held three weeks in advance of the other. His remarks indicate no friendliness towards Tilden. It is foolish, he says, for young men to waste their time in quarreling over or espousing the cause of old men who will all pass away in two or three years at most. And this is followed by the remark that the democrats must nominate some man upon whom they can unite. In these remarks as to both parties there is wisdom, and probably at last each party will unite on some man over whom there has been no quarreling.

The English are flattering themselves that they are not the only people affected by American agricultural competition. It is said by the London *Examiner* that the Americans have so far developed their [illegible] have actually carried corn [illegible] Odessa, [illegible] about as aggravating as [illegible] would find it should we begin to ship coal to Newcastle. Corn is [illegible] enough in the interior of Russia but [illegible] charges are so excessive that importers into the Black Sea find it cheaper to bring over corn from America. As an instance of the badness of Russian railway organization an Odessa paper mentions that owing to the station of the Odessa railway being situated a mile and a half from the export quay the cost of conveying the corn in wagons from the trucks to the ocean steamers was heavier than the carriage of the grain all the way from Odessa to London.

The Boston *Herald* reports that prices of goods in that city have begun to decline. But while this is so the agitation for higher wages continues in nearly every branch of manufacturing business and also among workmen of other classes. Strikes for higher wages on a stagnant or falling market are always failures and it is time that the leaders of trades unions had learned at least that one principle of political economy.

Presley Denny formerly of Oregon but now of Utah has been elected a delegate from Utah territory to the Chicago convention. The other delegate is M C Baiva. Both are for Blaine who was declared the first choice of the republicans of Utah for the presidency.

THURSDAY MORNING APRIL 15 1880

CITY.

PROMOTIONS.—Captain Fred Bolles did not come up on the steamer *Elder* this trip for the reason that he has been assigned by the Oregon Railway and Navigation Company to the responsible duty of bringing the new and magnificent steamer *Columbia* around from New York to San Francisco Captain Bolles left San Francisco a few days since over land for the east and will arrive in ample time to assume command of the new ship The *Columbia* will probably sail from New York about the 20th of May and will complete the passage around Cape Horn in about fifty days Captain Pohlman who for some time has had command of the steamship *City of Chester* has been transferred to the *Elder* Captain Jessen still has temporary command of the *Oregon*

ABOUT CLOSING SATURDAYS AT 2 P M—A committee of wholesale merchants and employes will visit the different mercantile houses on Front street in a few days with a request to close their places of business on Saturdays at 2 P M Such action on the part of merchants will give themselves and all employes the desired opportunity of witnessing and taking part in cricket matches boat races, etc, which attracted much attention last season and which promise for the coming summer to be more interesting than ever before. The practice of closing early on Saturday afternoon has almost grown into a custom with merchants in eastern cities and would no doubt be satisfactory to all concerned if adopted here

WRIT OF HABEAS CORPUS—Ah application for a writ of habeas corpus in the case of Ah Lee, the condemned Chinaman, will be filed to day in the United States circuit court by the attorneys for the defendant It is claimed that Ah Lee is a native of China, is not a subject of this government, and therefore his case does not fall within the jurisdiction of the court, also that the present supreme court of Oregon and the state circuit court are not constitutionally organized tribunals and hence have no power to decide the question of the guilt or innocence of the defendant The affidavit of Ah Lee could not be obtained yesterday owing to the absence of Sheriff Norden, but will probably be secured to-day.

SURVEY ACROSS THE CASCADES — Captain Isaac W. Smith, a civil engineer of the Northern Pacific railroad, in charge of a party of surveyors, left New Tacoma last week for the purpose of surveying a pass through the Cascades to some point about the headwaters of the Yakima Every few days persons living in the mountains come to Tacoma with stories of wonderful passes through the Cascades. It is altogether likely that, as soon as the summer season opens, four or five separate surveying parties will be sent out from New Tacoma by the Northern Pacific company.

THE NEW TRUCK.—Mr. D D Hayes, inventor and manufacturer of the Hayes truck, arrived on the *Elder* yesterday morning and was introduced to the fire boys at the various engine houses during the day. The *Westfoot*, with the truck aboard, arrived at Astoria at noon yesterday, and will be here probably by this evening. The public exhibition will take place Saturday afternoon at some place to be designated by Chief Engineer Jordan The report generally circulated that the truck is too large to be contained in the hook and ladder house on Morrison street is without foundation.

OBTAINED CONTROL.—We understand that the Oregon Railway Company, limited, has purchased the entire interest of Mr. Joseph Gaston and other parties, in and to the Dayton, Sheridan and Grand Ronde Narrow-Gauge Railroad. Mr. George Revett, who has been acting as receiver of the road for some months, has been relieved of the duties and the full control and management of the road has passed into the hands of the Oregon Railway Company, limited.

BEING FASTENED DOWN.—Several men were employed yesterday in digging trenches near the foot of Stark street under the pontoon leading down to the ferry. Heavy pieces of timber were placed down and buried, to which the pontoon was securely fastened. The object is to anchor the pontoon down so that it cannot rise in the event of a June freshet. In view of the fact that we shall doubtless have very high water, the precaution is certainly a wise one.

ON THE LOWER COLUMBIA.—Mr Leinenweber of Astoria, was in the city yesterday. He reports that the salmon run is as yet inconsiderable, but that that circumstance at this season is not deemed alarming. The strike of fishermen continues at Astoria and the vicinity, but all above Tongue point have gone to work at the old rates. More than one thousand men, who, but for this strike, would be profitably engaged, are now idle at Astoria.

PRODUCE AND STOCK EXCHANGE.—Mr. S. S. Bandshut has engaged the old Holton House on Front street, between Stark and Oak, which is being fitted up for the new produce and stock exchange It is expected that the building will be ready for occupation about next Wednesday (21st inst) Most of the leading commission merchants of the city have become members The success of the exchange seems assured.

THE "RAT" OUTRAGE—Frank Keller, a barkeeper at the Gambrinus saloon, asks us to state that he had no part in the cruel action described yesterday, and was not present at the time it was committed A person known as "Billy," applied the match, and he, with Wm. Schmitz, the proprietor, who stood at hand and enjoyed the fiendish sport, are the culprits in the case.

A COMING EVENT—A committee of the Alpha Literary Society will arrange a series of literary and musical exercises to be performed at the Taylor Street Methodist church on next Wednesday evening the occasion being a social entertainment by the young ladies of the church to raise money for the organ fund. Something of interest may be expected.

NEW RESIDENCES—Dr. Bartholf has commenced the construction of a block of residences on the northeast corner of Sixth and F streets There will be two double and one single dwelling two stories high The cost will be about $5000. J M Freeman is building a neat one-and a half-story cottage on G street, between Sixth and Seventh

REPAIRING.—At present a large force of men are engaged at work on the upper part of First street, making preparations for the macadamizing of the strips of the street on either side of the street car tracks. The entire block between Harrison and Montgomery is torn up and will be impassable until the workmen have finished

MATERIALLY IMPROVED.—We are pleased to state that the condition of Mr Geo D Chapman has very materially improved during the past thirty hours. He is receiving every possible attention at the hands of the attending physicians and the Sisters of Mercy and strong hopes of his recovery are entertained

DAILY BOAT—As will be seen by consulting the advertising column, boats will leave here for The Dalles, Umatilla and Wallula (connecting by rail with Walla Walla) every day except Sunday This will be a great convenience to the traveling public as passengers can go through six times a week

TILLAMOOK LIGHT HOUSE—Bids for the original work of the new lighthouse at Tillamook rock will be opened in Washington city next Tuesday It is understood that two firms in this city will submit proposals for the work Some work for the house proper will probably be commenced June 1st

FISHERMEN'S PLEDGE—Eighty fishermen publish a card in the *Astorian* pledging themselves not to fish for less than sixty cents per fish, and agreeing to leave in a body if any one of the members of the union is discharged on account of the pledge

STEAMER ALEX DUNCAN—Yesterday the steamer *Alex Duncan* sailed from this port for Tillamook Yaquina Bay and Coos Bay She took a full cargo of assorted merchandise The steamer arrived at Astoria yesterday at 4 P. M., and will probably cross out this morning

FOR LEWISTON—Boats will leave Celilo for Lewiston and points on Snake river commencing next Monday, April 19, at 5 A M A boat will leave Tuesday morning 20 h also on the 23d 24th, 28th and 29th

FILED ARTICLES.—The Amateur Musical and Literary Society of Cedar Mill, Washington county have incorporated by filing articles with the secretary of state at Salem.

ANNIVERSARY OF LINCOLN'S ASSASSINATION—Fifteen years ago this morning news of the death of Abraham Lincoln at the hands of the assassin J. Wilkes Booth reached this city Many old residents will vividly remember the scenes of excitement and the crowds of men about THE OREGONIAN office then on Washington street eager for every particular

SOCIAL PARTY.—A very enjoyable social party was given last evening at Neppach's Hall in East Portland by a number of young people of that city The attendance was large and the affair managed very successfully Excellent music was furnished by the Northwestern String Band and Professor Farrell called the figures

REQUISITION ISSUED—A requisition was issued yesterday by the state authorities at Salem on the governor of Washington Territory for the arrest and return of Michael Ryan and Louis Blanchard under charge of crime of larceny in a mine in Columbia county

ANNUAL CONVOCATION.—The annual convocation of Oregon and Washington will be held in June next commencing on Thursday the 10th The convocation will follow immediately upon the closing of school in St. Helen's Hall and Bishop Scott Grammar School

My child," said the Captain, "I'm not finding fault, no harm in putting your best foot foremost I wish you'd do it a little more At your age you ought to be thinking about getting married There's very little doubt that the giddy young thing was thinking about it much more seriously than the Captain—dull, as old men are—ever imagined, but she was troubled about her complexion Madame Rachel's Enamel Bloom was recommended and solved the problem Perfectly harmless, made of the most delicate plants, and wholesome in its effects it is indispensable to every lady J A Child, druggist cor Second and Morrison

THE REASONS WHY

The hair falls off—Whenever the cuticle shrinks from disease, age or other causes it presses hard around the stem of the hair thereby preventing the coloring substance and vital element from passing up from the roots In order to forestall this difficulty it becomes necessary to apply the Oriental Tonic every morning and night, combining it with a vigorous use of the brush the object being to renovate the vitality of the cuticle and soften the vesicles This is soon attained and the interrupted communication between the bulbs and hair is renewed, resulting in a brilliant silky abundant crop of tresses

THE INFECTION SPREADING

The Columbia River Bar—What [illegible] going to do about it

TO THE EDITOR [illegible]

The following appears in *The* [illegible] published in San Francisco April [illegible] 1880

[illegible] largest [illegible] from the *As*[illegible] [illegible] showing [illegible] [illegible] made by Captain Flavel

We [illegible] bar [illegible] vessels [illegible] best suited to cross the bar [illegible] which [illegible] trade intended to say to the world that [illegible] bar [illegible] in a very brief time will be safe for deep vessels to cross we do not believe

Nevertheless to [illegible] paragraph in the [illegible] of the [illegible] March [illegible] and [illegible] San Francisco journals

The [illegible] that such statements may be serviceable to the friends [illegible] who are pleading with the committees at Washington for our share of the river and harbor appropriations for improvement [illegible] true that the [illegible] is a highway of a rapidly increasing [illegible] justly [illegible] appropriations

When we consider [illegible] the United States [illegible] Mississippi to make their navigable for deep water ships and [illegible] [illegible] empire [illegible] beneath [illegible] which [illegible] a feather [illegible] San Francisco

Be assured gentlemen the Columbia river will continue to flow some few years more to the rythmic sound of her own majestic dashings

The reply of old Diogenes to the Emperor's proposal to perform a royal favor for him—the Columbia river may well use to those who defame her by accusing her of such rapid shoaling propensities—stand out of my sunlight

Just bring along tug boats of power sufficient and pilot your vessels where the deep water is and only ships of extraordinary draught of water will be subjected to delays in any sense more vexatious than a due regard to tides and winds make imperative the world over

The Oregon legislature at its approaching session ought to take energetic measures to place this matter in its true light before the world whose interest is us and our ability to transport our cereals and other products safely and promptly to market will be increased a thousand fold in the next twenty months

If the bar is traduced as we believe it is expose its traducers officially and let the integrity of our immense empire prove an inducement to shippers and ship-owners and ship masters to come to the Columbia river with the fullest confidence

If there are improper monopolies or "rings" as has been charged and as is frequently asserted let the representatives of the people with the weight of their constituency sit down on them and thus secure all the help the federal government can render and all the help we only as Oregonians can supply viz the most efficient pilots, the most powerful tugs and the most equitable rates for their services. PORTLAND
CITY HOMESTEAD.

THE LAND IN THIS ENTERPRISE LIES adjoining the city and is only from ten to fifteen minutes walk from the court house and a less distance than that from one of the best public schools in the city It is divided into

One Thousand and Twenty-Four Lots,

Fifty by one hundred feet in size with streets sixty feet wide Two hundred of these lots will be reserved for those who desire to improve and build this summer and fall. These lots will be sold on the same liberal terms that are offered in the Homestead proper

Price.

All lots will be sold for $100 cash, payable in instalments of $5 per month or the small sum of 16⅔ cents per day No interest will be charged and a good and sufficient Bond for Deed will be given upon the payment of the first installment of $5, and a Warranty Deed upon receipt of last instalment both without expense to purchaser

Appreciation of Values.

By reference to *The Oregonian* of Feb 15th, it will be found that city property has advanced twenty five per cent during the past year As there has been no excitement, the rise is wholly attributable to the increasing immigration and the growing confidence inspired by our numerous railroad enterprises and the development of our many natural resources that have hitherto slumbered for lack of energetic men to develop them

It is True,

That of all real estate investments the homestead plan is the best and safest as all who invest are interested in making the whole property more valuable To illustrate Suppose A builds a house on his lot and B owns a lot adjoining B gets the benefit of A's improvement while A is not injured thereby This philosophy will apply to the entire property

We have donated a lot to each of the principal churches for church purposes

In addition to the above two lots are set apart for public school purposes

Division.

The division of this property will take place when the lots are all sold or in any event not later than the

28th February, 1881,

at the Mechanics Pavilion commencing at 10 o'clock A. M. public notice of which will be given by publication in two principal journals in the State

It will be made in the manner decided upon by a majority of the purchasers in the Homestead Parties interested may appoint proxies to act for them if they desire to do so Parties who do not attend at the time of the division either in person or by proxy will be bound by the plan settled upon by the majority of those who do so attend

It is suggested by the purchasers that division may be made by placing the number of each lot and block in a wheel or box and the name of each party interested in the homestead in another—then a name will be drawn from one and a number from the other and the lot so drawn deeded to the person whose name is so drawn with it at the same time.

All but the first installment must be paid at the banking house of Ladd & Tilton in the city of Portland

A VESSEL'S VICISSITUDES—The iron bark *Ada Iredale* which was at this port a few years ago, arrived at San Francisco on the 6th inst An exchange of that city has the following This vessel has experienced a most eventful and unique history She sailed from Liverpool where she was owned for this port in August 1876 with a cargo of coal On the 18th of October 1876 being then in latitude 27 degrees south 106 degrees 15 minutes west the cargo took fire and on the 17th of the same month she was abandoned and blew up almost immediately The crew twenty two in number were all saved with the exception of the carpenter who was drowned by the capsizing of a boat at the time the ship was abandoned [illegible] succeeded in reaching the Marquesas Islands From there they were conveyed to Tahiti by the schooner *John Boyd* the captain and the carpenter [illegible] on to this port in the same vessel The crew shipped on the whaling bark [illegible] New Bedford which sprung a leak on her homeward voyage and finally put into this port After drifting around the ocean from October 1876 to June 1877 the shell of the *Ada Iredale* was picked up by a French gunboat near Tahiti and towed into that port The cargo of coal was still smoldering The distance drifted was 2350 miles A Crawford & Co of this city purchased the hull for $500 and thoroughly repaired the vessel She comes here under a sea letter from the American consul at Tahiti but a bill has been favorably reported in congress to place her under the United States flag and change her name to *Annie H Johnson* The French authorities at Tahiti gave a grand ball on board just previous to her departure furnished wharf and wharfage from the date the repairs commenced and towed the vessel to sea without charge

Is called to the fact that we have just received, per steamer State of California, a LARGE BANKRUPT STOCK, purchased in New York by MR. J. Monetary matters are somewhat more quiet than was expected. Borrowers are not numerous, and their demands are met without much delay if the collateral put up is of first class. The supply of available funds is regarded as ample to meet any call likely to arise in the progress of the spring trade. Loans upon real estate are made occasionally, but these are not so numerous as last year, though improvements in city property have never been greater than at this time. Wool buyers are making some demands on the market for funds, but recent reports are said to have inflated prices so much in the minds of growers that but a comparatively small amount of transactions in the aggregate have been effected. Remittances from the interior are fair for the season.

The wheat trade still drags along in an apathetic sort of a way, the two or three vessels at hand filling up slowly, with no immediate prospect of others undertaking to load before the close of the harvest year. When the cereal was commanding about the highest figure reached the past season we departed a little from our custom of declining to advise holders, and intimated a belief that the top had been reached. We have the same opinion now in regard to the staple of wool. There may be a combination of circumstances to force the market further up, but the best judges think that present prices are about as good generally as will be realized. There is not sufficient stocks in manufacturing centers to have much weight in the market, but the season is just opening and the clip in the United States is very large. Should it be put on the market rapidly, the great excess above immediate requirement may somewhat alarm buyers early in the fight and cause them to materially reduce bids. Factories everywhere are busy and their products are being rapidly sold; but a few months may convince them that the country is supplied, and that the excitement over the much talked of revival in business has again led them to over production resulting in the end, in lower prices and a shutting down of the mills and a restriction of production. Quotations are unchanged from last reports, and steady. Other products quiet with a less volume of business than on other days so far this week.

Fever and Ague.

The true antidote to the effects of miasma is Hostetter's Stomach Bitters. This medicine is one of the most popular remedies of an age of successful proprietary specifics, and is in immense demand wherever on this Continent fever and ague exists. A wineglassful three times a day is the best possible preparative for encountering a malarious atmosphere, regulating the liver, and invigorating the stomach.

SCROFULA.

Wonderful Cure of Blindness.

D. RANSOM, SON & CO.: For the benefit of all troubled with Scrofula or Impure Blood in their systems, I hereby recommend King of the Blood. I have been troubled with Scrofula for the past ten years, which so affected my eyes that I was completely blind for six months. I was recommended to try King of the Blood, which has proved a great blessing to me, as it has completely cured me, and I cheerfully recommend it to all troubled as I have been.

Yours truly,

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL
CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by

FOLLIES OF YOUTH,

such as SPERMATORRHŒA, SEMINAL WEAKNESS, or LOSS OF ERECTILE VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit their diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their misery and existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation free, and a list of printed questions sent to those living at a distance, who cannot consult him personally. Enclose postage stamp for list.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5. Call or address
